## DIFFERENTIATORS

### Exclusive Focus on First Responders

Purpose-built telehealth platform tailored to the clinical, legal, and operational demands of law enforcement, fire, EMS, and security agencies.

### Four Years as an Occupational Health Consultant at the Boston Police Department

Since 2021, led injury triage, blood-borne exposure management, and return-to-duty determinations for a major metropolitan police force.

### More than 30% Reduction in Lost Work Days

Achieved through centralized injury tracking and adherence to duty-specific, evidence-based recovery protocols.

### Dedicated Clinical Infrastructure

Uses Clinical Works (HIPAA-certified EMR) with a secure, agency-facing portal to ensure transparent documentation and defensible decision-making.

### Agency-aligned Care Teams

Multi-disciplinary pods assigned to each agency to provide culturally competent care and maintain continuity across all cases.

### Telehealth-Based Functional Capacity Evaluations

Remote evaluations using ACOEM and MDGuidelines to assess physical readiness for duty and support return-to-work decisions.

### Return-to-Work Decision Support

Delivers real-time medical clearance with legally sound documentation to HR, risk management, and command staff.

### Occupational Exposure Management

Live response to blood-borne pathogen exposures, needlesticks, and infectious threats with same-day telehealth evaluation and documentation.

### Case Management & Recovery

Centralized platform tracks every injured-on-duty case, integrating follow-ups, provider input, and recovery progress via a HIPAA-compliant dashboard.
